

# The Most Important Announcement of THE HOLIDAY SEASON

You Now Have an Opportunity to Buy The Most Desirable Home Sites  
Adjacent to El Paso at a Low Price and on Easy Terms

## Valley Gate Home Tracts Now on Sale

Buy a 5-Acre Home Tract Instead of a Congested City Lot

No news of the present Holiday season can be just as interesting as that we give today. It is an easy forecast to make that the high class suburban homes of the future will be down the valley. This is the first opportunity El Pasoans have had to purchase home tracts at a nominal price and on easy terms.

### Where Valley Gate Is

Valley Gate home tracts are situated just 6 miles down the valley on the County Road. They are easily reached in an automobile or with horse and buggy. When the valley street car line is built it will be about a 40-minute ride to Valley Gate. These are the first desirable home sites down the valley road, and the number is limited so you had better investigate at once.

### Valley Gate Advantages

These home tracts are 150 feet wide, fronting directly on the County Road, and 1500 feet deep. The soil is adapted to growing anything, and water is easily secured. Each tract has enough surplus ground to give you a sufficient space for alfalfa to feed a cow the year round, orchard, garden, in fact the natural conditions are ideal. Neither now nor at any future time will you be offered an opportunity to secure a high-class home tract like these at as attractive a price.

### Building Now Being Done

Several homes have already been built and another is now under construction. A building line, a certain distance from the County Road, has been established and will be maintained. No road-houses or anything of a similar nature will be permitted in this tract. The owner proposes to make this a strictly high class residence section and all tracts will be sold subject to restriction.

A Valley Gate Home Tract Costs \$350.00 Per Acre 1-3 Down, Balance on Easy Payments
